Pi 400 Teardown. Before we talk about how the Pi 400 works, though, let's take it apart! Looking at the bottom, there aren't any screws or other fasteners, and the only difference from the regular keyboard is the inclusion of some vents and larger rubber feet.

The Raspberry Pi 400 - Teardown and Review | Jeff Geerling

The Lions may have torn apart their roster, but it's possible with a new mindset moving forward that they can find some consistency moving forward and change things for the better.

Nate Burleson Doesn't Believe Lions Are 'Full Teardown ...

We can learn some things from examining the MX Master 3 electronics at the component level. First, the optical mouse sensor is the same (PMW3816DM). The number is formatted like a PixArt part number but isn't listed on their website, so it may be a part they customized for Logitech. The bluetooth module has changed, from nRF51802 to nRF52832.
