**Total project control : a practitioner's guide to managing ...**

An IBC 2000 Project Control Best Practice Study carried out by IPA identified that good Project Control practices reduce execution schedule slip by 15%. Project Controls' cost range from 0.5% to 3% of the total project (including cost accounting), therefore, to break even, Project Control needs to improve cost effectiveness by around 2%.

**Project Controls : What is it and why is it important**

Project controls include such functions as estimating, planning and scheduling, cost control, risk analysis, and various reporting functions. While these controls have been proven to be effective in providing cost benefits to projects, each organization must decide upon an appropriate project controls strategy and plan so as not to pay more for the controls than the benefits they deliver.
